

**We at Vital Signs are proud to be a partner with Burger King Restaurants of Canada to provide professional and consistent custom signage.**

**This is our second edition of the popular sign idea catalogue listing the best ideas from the various locations across the country - ideas which should be shared with everyone.**

**All listings are on file at Vital Signs, and are completely customizable to meet your specific needs, plus we ship them direct to you anywhere in the country!**

**Keep in mind that this is just a sampling of what we can do - so if you have a special sign/label or decal requirement, or just need some advice on the perfect wording for that sign you have been meaning to get, just give us a call!**

**We have printed a master copy of our new Direct Order Form at the back of this catalogue to make ordering quick and easy! Simply photocopy the form, fill in the information and fax it to us.**

**Burger King and Vital Signs  
- Partnering into the new Millennium!**
